EDUCATION

Centennial College

Toronto, Ontario

Advanced Diploma - Software Engineering Technologies

Expected Graduation, April 2026

- **Concentrations:** Game Programming / Development
- **GPA:** 3.6
- **Related Coursework:** Data Structures & Algorithms, Java Programming, C# Programming, **Software Systems Design**, Web Application Development, Unix/Linux Operating Systems, **Object-Oriented Programming**, **Software Requirements Engineering**, C++ Programming

Meta Front-end Developer Course

Toronto, Ontario

Professional Certificate

Expected Completion, Dec 2024

- Completed multiple projects that simulate real-world front-end tasks, including **accessible**, dynamic, **interactive** web pages, as well as single-page applications, and API's
- Developed skills in **UX Design** principles, focusing on creating a user-friendly interface that meets WCAG guidelines.
- Learned best practices for designing and developing **responsive web pages** that adapt seamlessly to various screen sizes and devices.

EXPERIENCE

Treasury Board Secretariat - OPS

Toronto, Ontario

Co-op Junior Programmer

Jan 2024 – Aug 2024

- Developed on top internal web applications resolving bugs and developing user stories using **Angular** and **TypeScript**, maintaining a consistent and effective user experience by using scalable and high-quality code.
- Contributed to regression testing efforts, validating up to 20% of total application features to ensure software reliability and minimize deployment issues.
- Implemented **Scrum Agile methodologies** to maintain a steady workflow and collaborated with senior team members for efficient results.
- Utilized MS Azure cloud platform for managing work items, repositories and overall project organization. Using Azure Boards for tracking tasks and sprint iterations to ensure a stable workflow, and **Azure Repos** for tracking and collaborating on code.

Skyway Christian Assembly

Toronto, Ontario

Web Developer Volunteer

Oct 2024 – Present

- **Collaborated** with designers and content creators to integrate new features and functionalities, ensuring seamless updates to the website.
- Monitored website for technical issues, **debugging** and **troubleshooting** problems to ensure minimal downtime and optimized performance.

PROJECTS

FlashBurger MERN Stack Web Application

Toronto, Ontario

Team Lead

Nov 2023 – Dec 2023

- Spearheaded the development of a full-stack web menu application for a restaurant named FlashBurger using **React**, **Node.js** and **MongoDB**.
- Collaborated with classmates to efficiently carry out tasks consistently on time, while providing written and video documentation on the product for our mock shareholder.

Meta Course Capstone Project

Remote

Independent

Oct 2024 – Current

- Designed and styled a responsive and interactive UI using front-end tools such as **ReactJS**, **JavaScript**, **HTML**, and **CSS**.
- Worked with tools such as Git, GitHub, and Figma, to implement workflows using version control and collaborative design techniques.

SKILLS

Programming: Java, Python, JavaScript/TypeScript, HTML/CSS, UML, SQL, Node.js, React.js, MongoDB, C#, Angular

Tools: VSCode, IntelliJ, PyCharm, Eclipse, MS Azure, **SDLC**, Unity, Git, Bootstrap, Agile, Postman, MS Office (Word, Outlook, Excel, and Powerpoint)
